- ✓ Dura-flex® rubber  
= unique natural floor and window squeegee rubber

## Service

- ✓ Pro-active customer service
- ✓ High degree of flexibility and reliability
- ✓ Direct and frequent contact with the market

3

Unique know how of natural rubber

The Dura-Flex® moss rubber used for our floor squeegees is the best rubber in the world for floor cleaning.  
The moss rubber blades have been especially developed to give a “finger-dry” result when using a floor squeegee.

- Dura-Flex® Rubber - Natural Moss Rubber
- ✓ **Durable** > lasts longer
  - ✓ Strong & Flexible: extreme high resistance to tearing and abrasion
  - ✓ Excellent elasticity: the blades dig deep into uneven surfaces and recover their shape after use
  - ✓ Closed cell rubber: has perfect density and does not absorb water. The natural skin adds strength and helps prevent bacteria from harbouring inside the squeegee.
  - ✓ Multi-surface: use on both smooth and uneven surfaces like concrete, brick, tile and marble
  - ✓ Double rubber blade - double cleaning - superior cleaning results

A specific rubber for every application

- Black Dura-Flex® rubber**
- ✓ Good general all-purpose rubber
  - ✓ Ideal for cleaning areas where resistance to heat and oil is not required
  - ✓ Ideal for cleaning areas where resistance to heat and oil is not required

- White Dura-Flex® rubber**
- ✓ Used when hygiene is an important factor
  - ✓ Users can easily see when the squeegee needs to be replaced
  - ✓ Preferred in bathrooms, pale floors, around swimming pools

- Red Dura-Flex® rubber**
- ✓ The red Dura-Flex® rubber contains Neoprene to give excellent resistance to oils, acids, greases and solvents
  - ✓ Preferred in factories, auto care and maintenance facilities

Branding in metal frame

All our Moerman metal squeegees with natural rubber are Dura-Flex® branded.

Dura-Flex® brand = guarantee that the squeegee has the best rubber = perfect results

Explanatory coloured label

All our squeegees with natural rubber carry an explanatory coloured label.

Differentiation of rubber types  
Quality hallmark = strengthen market position!
