DRYWALKER FLEX

“The ultimate window cleaner’s companion.”

No one really enjoys cleaning windows with wet legs. It will make it harder for your muscles to operate at their optimum and your performance can suffer as a result. **DRYWALKER FLEX** is the Moerman ingenuity to succeed in not only creating the best conditions to keep your legs dry but also to properly organise your work gear. Packing your BOAB has never been so easy. It’s adaptable to whatever window cleaning job you’re performing.

The clever storage compartments in the **DRYWALKER FLEX** combines practical and elegance in a contemporary design. **DRYWALKER FLEX** is modular, detachable and water-proof. This BOAB will keep your squeegees and applicators more accessible.

Customize your own **DRYWALKER FLEX**, show off your wanderlust and share your adventures. The choice is yours: a double squeegee holder or squeegee holder with bucket.

For the ultimate experience you can also choose to wear two: one on each side and all your gear is at first hand!
