NEW

EXCELERATOR 2.0

The ultimate squeegee...
... redesigned and improved.

Moerman keeps its promise: continuous innovation in traditional window cleaning tools. Excelsator 2.0 has arrived! The Excelsator handle... redesigned and improved for an even better cleaning experience!

The new Excelsator 2.0 takes your window cleaning to another level. This innovative update is engineered to be easy to use, more robust, even more adjustable and stable. A whole new design of the bi-component handle is sculpted to fit comfortably in your hand.

The new Excelsator 2.0 doesn't only promise, it delivers! It features a redesigned grip, easy and safe channel fixation, adjustable swivel and 5 adaptable angles (-20°, -5°, +10°, +25°, +40°). The Excelsator 2.0 is the handle that can help you do that unreachable and nasty job in a considerably shorter period of time!

For hand-use we recommend the combination of Excelsator 2.0 and the Liquidator 2.0 channel. Tired of switching tools all the time? Just click the F*LIQ on the Liquidator 2.0 channel and you have an all-in-one tool with just a flick of the wrist! Do the F*LIQ and you're ready to take it higher, literally!

Call in Dr. Angle and get the maximum out of the Excelsator 2.0 on your extension pole to reach even the hardest and highest places to clean. Zero-detailing!

MOERMAN®
PIONEERS IN WINDOW CLEANING

- 01 ✓ Redesigned gripping jaw allowing for deeper reach when closing out a window.
- 02 ✓ Extreme angle range: -20° | -5° | +10° | +25° | +40°. The negative angles and thinner jaw allow for easier closing out.
- 03 ✓ Improved locking button to change your handle from a swivel to a fix tool.
- 04 ✓ Redesigned grip which allows for a more ergonomic hold.
- 05 ✓ Ideal for hard to reach places, use with the Dr. Angle
